PROFESSIONAL SUMMARY

Product Manager who builds. 5+ years shipping products across FinTech, EdTech, and Marketplace platforms - from PRDs to production code. Built Skilladder's AI assessment platform from prototype to primary product, cutting deployment time by 85% and growing adoption to 6 enterprise clients. I work across Linear, Figma, and Postman for product ops, and Cursor, Claude Code, and Gemini for rapid prototyping. I bridge the gap between strategy and hands-on execution.

WORK EXPERIENCE

05/2025 - Present

Lead AI Product Manager - Operations (Part-time from 04/2026)

Skilladder AI | Remote

AI-powered skills assessment and talent workflow platform for skills-based hiring across Africa.

- Engineered and delivered a full-stack assessment platform from prototype to production, now the company's primary product, using AI tools to build a multi-tenant dashboard.
- Cut assessment deployment time by 85% (from weeks to 24 hours) by building a template-based system with built-in scoring, proctoring, and participant management.
- Grew platform adoption to 6 recurring enterprise clients by owning the full product lifecycle - research, requirements, design, and hands-on development.

05/2024 - 02/2026

Product Manager

Tellerpoint | Remote

Agency banking platform enabling financial institutions to deliver services to underserved communities.

- Drove full product strategy and development lifecycle for the Collections Mobile and Web App through agile sprints and cross-functional coordination.
- Delivered the Tellerpoint Mini product end-to-end by managing strategy, roadmap, and development lifecycle.
- Improved product features through extensive user interviews, translating actionable feedback into prioritised enhancements.
- Increased team productivity by implementing agile practices through weekly syncs and scrum rituals.

05/2024 - 05/2025

Product Manager (Consultancy)

Devlabs Africa Limited | Remote

Product consultancy providing strategy and development services for African tech startups.

- Drove product strategy for Carbin Africa to #1 on Tech Cabal's "25 Startups to Watch in 2025" by optimising dealer inventory management and platform adoption.
- Delivered GPS's integrated delivery ecosystem by implementing real-time tracking and automated dispatch features.
- Built Dotalinks' order and delivery management platform through stakeholder research and cross-functional engineering collaboration.

09/2022 - 05/2024

Product Manager

Switch Recycling | Lagos, Nigeria

Waste management company with mobile/web apps and integrated fintech solutions in Nigeria.

- Boosted user engagement by 15% through UX enhancements to the Request feature, improving waste collection efficiency.
- Increased team delivery cadence by implementing agile practices through weekly syncs and scrum rituals.
- Delivered waste management app by analysing user data and market trends through cross-functional collaboration.
- Reduced customer support queries by creating training materials that improved the product adoption rate.

05/2022 - 07/2022

Associate Product Manager

Treford | Lagos, Nigeria

Product management training and incubation programme.

- Developed BetaCare, an electronic health record product, selected as the top solution by pitching scalability and viability to stakeholders.
- Built a comprehensive product strategy by defining user personas, business models, prototypes, and roadmap.

03/2019 - 06/2019

Associate Content Developer

Marketing Bunnies | Remote (India)

Digital marketing services company based in Lucknow, India.

- Delivered 100% of content on time and within budget by collaborating with cross-functional teams to align with user needs.

02/2019 - 04/2019

Graduate Intern

Rhics Technology | Lagos, Nigeria

International digital agency specialising in mobile/web development and IT consultancy.

- Achieved high client satisfaction by executing digital marketing campaigns across social media, web design, and branding.

EDUCATION

12/2013 - 09/2018

Bachelor of Laws (LL.B)

Lagos State University | Lagos, Nigeria

CERTIFICATIONS

08/2023

Product Academy Series 2023 - McKinsey Academy

08/2022

Product Led Growth Micro-Certification (PLGC) - Product School
